

Accountability in Primary Care

Ruth Wilson, M.D., C.C.F.P
Associate Director, Health Policy
College of Family Physicians of Canada

Things I used to know

- Warfarin for MI
- HbA1C less than 7
- Hormone replacement therapy for heart disease
- Mammography for decreasing breast cancer mortality
- Evacuation for childbirth

- The focus has shifted from patients and the disease that make them suffer to the diseases themselves and their measurement within the patient
- Dee Mangin, 2010

	↓ LDL cholesterol
	↓ LDL cholesterol
	↓ LDL cholesterol
	Better glucose control
	Lower HbA1C
	Better kidney function
	Lower blood pressure

Adding torcetrapib to atorvastatin	↓ LDL cholesterol
HRT	↓ LDL cholesterol
Adding ezetimibe to simvastatin	↓ LDL cholesterol
Rosiglitazone for diabetes	Better glucose control
Tighter glucose control	Lower HbA1C
Lower glucose control target	Better kidney function
Adding an ACE blocker to an ACE inhibitor	Lower blood pressure

Adding torcetrapib to atorvastatin	↓ LDL cholesterol	Higher death rate
HRT	↓ LDL cholesterol	Higher death rate
Adding ezetimibe to simvastatin	↓ LDL cholesterol	No change in death rate
Rosiglitazone for diabetes	Better glucose control	Higher rate of heart attacks and deaths
Tighter glucose control	Lower HbA1C	Higher death rate
Lower glucose control target	Better kidney function	More hypoglycemic episodes
Adding an ACE blocker to and ACE inhibitor	Lower blood pressure	Higher adverse events with no change in CV events

The Future Family Practice in Canada: The Patient's Medical Home

The Patient's Medical Home
in the Community

CFPC's Patient's Medical Home

- Patient-Centred
- Personal Family Doctor (rostering, capitation)
- Team-Based care (separate funding stream)
- Timely access (p4p)
- Comprehensive Care (ffs for unsociable hours)
- Continuity (negation)
- Electronic Records and Health Information Technology (p4p, preventive bonuses)
- Education and Training and Research (separate stream)
- System Supports (admin support funding)
- Evaluation (define what success will look like)

Things I thought I knew

- 24/7
- Hospital care
- Obstetrics
- Pay for performance
- Teams
